## Leading Christian thinkers - seven new networks to support you and your church - an opportunity to work together as God's people.

### Leading Christian thinkers...

#### John Lennox

John Lennox has debated with Richard Dawkins on 'The God Delusion' and on 'Has Science buried God?' He is Professor of Mathematics

(emeritus) at the University of Oxford and Fellow in Mathematics and the Philosophy of Science at Green Templeton College, Oxford.

#### Os Guinness

Os Guinness is an author and a social critic. Great-great-great grandson of Arthur Guinness, the Dublin brewer, he was born in China

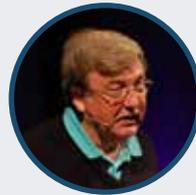

in World War Two where his parents were medical missionaries.

#### Michael Green

Michael Green is a well-known evangelist in many parts of the world. He has been involved in leading missions in

universities both in the UK and across Europe for the past five years.

#### Lindsay Brown

Lindsay Brown is a native of Wales. He has been involved in student ministry with IFES for over 30 years, serving variously as European Regional

Secretary, International General Secretary and currently heads up FEUER (Fellowship of Evangelists in the Universities of Europe).

### More than just a conference...

When you sign up for one of the dedicated network streams at the conference, you'll attend four sessions to help equip you in your church or community where you are sharing the gospel. And the network will go on beyond the conference - as a support and mentor group.

Following Equip 2017, you'll be invited to join a programme of webinars, email chats and further training opportunities to take the thinking from the conference and continually apply it to where you are. You'll get the opportunity to journey with a group of people who are interested and passionate about the same area of ministry as yourself.
